university of giessen
undergraduate studies in biology

why me?

- Open-minded. ✓
- Innovative and quick learner. ✓
- Eager to work in a team. ✓
- Self-reliant and flexible. ✓
- Excellent German & English. ✓
- Proficiency in R environment. ✓
- Good communication. ✓

attitude

I prefer a **holistic attitude** to tackle challenges. I analyse and communicate information in an **honest, unbiased** manner allowing for objective, **evidence-based decision making**. This involves good **knowledge** of a specific system and how information was obtained from it. I believe that **communication** has to be **efficient** and **effective** to generate **sustainable results**.

approach

Profound knowledge is always the starting point. I appreciate working in a **team** to reach **maximum success**. At the same time, all **team members** have to have their own areas to **thrive** and **show personal performance**.

interests

I have a strong interest in **nature, society** and **politics**, and I am **up-to-date** in these fields. Anything **aesthetic** attracts my attention: I love the beauty of the **small things**.
